

## Special Issue

# Advances in Hepatitis: Prevention, Treatment, and Global Health Impact

### Message from the Guest Editors

Hepatitis continues to pose a substantial global health challenge, despite remarkable advancements in its prevention, diagnosis, and treatment. The advent of direct-acting antivirals (DAAs) has revolutionized hepatitis C therapy, yielding cure rates above 95%, while effective vaccination programs have curbed the spread of hepatitis B. However, inequities in access to care, particularly in low- and middle-income countries, hinder progress toward global elimination goals. This Special Issue aims to highlight innovative strategies in prevention, novel therapeutic developments, public health initiatives, and policy approaches addressing viral hepatitis. We welcome original research and reviews that explore molecular mechanisms, clinical trials, epidemiological trends, and health equity efforts. Our shared objective is to support global efforts aligned with the WHO's 2030 targets and ultimately reduce the burden of liver disease worldwide.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
