

## Special Issue

# Recent Developments in Hearing and Balance Disorders: 2nd Edition

### Message from the Guest Editor

Patients with the ear diseases of hearing loss or imbalance currently have effective interventions available to them throughout their lifetime. Revolutionary advances have been made in the field of hearing and balance technology in recent decades, such as implants, diagnostics and telemedicine, with innovations that allow for the diagnosis of ear diseases (cochlear and vestibular disorders) and hearing loss at any age.

The fundamental objective of this Special Issue dedicated to outlining the recent developments in hearing and balance disorders is to make available to readers the most recent advances in the diagnosis, prognosis and treatment of hearing loss and balance, as well as its effects on communication, cognitive impairment, social isolation or even the effects of impaired balance such as falls, and the frequent association of hearing disorders (hearing loss, tinnitus) with others closely related diseases, such as vertigo and imbalance. This Special Issue also includes studies focused on the relationship between chronic inflammatory and autoimmune diseases with audiovestibular manifestations.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
