Clinical Advances in Gastrointestinal Inflammation

Message from the Guest Editor

Gastrointestinal inflammation includes a wide spectrum of diseases from acute to chronic inflammatory processes of the gastrointestinal tract. *Helicobacter pylori* is the most prevalent chronic bacterial infection, with approximately half of the world's population estimated to be colonized. Along with the worldwide antibiotic resistance trends, eradication rates are declining, while resistance rates of *H. pylori* are increasing, and eradication is becoming increasingly difficult. For the above reasons, *H. pylori* is the most important gastrointestinal infection; therefore, this Special Issue, "Clinical Advances in Gastrointestinal Inflammation", is specially dedicated to *H.*

pylori infection. In this Special Issue, we would like to emphasize the challenges of treating inflammatory bowel diseases, especially regarding the COVID-19 pandemic, which certainly had consequences for these patients during the pandemic. Therefore, research during the pandemic as well as in the post-COVID era is very important.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
