

Special Issue

Orthopedic Surgery: Latest Advances and Future Prospects—2nd Edition

Message from the Guest Editors

Following the success of the first volume of this Special Issue

(https://www.mdpi.com/journal/jcm/special_issues/61238DDZIP), we decided to launch a second volume to

discuss a greater number of relevant topics. The progress achieved in the last 10 years in orthopedic surgery is remarkable. In particular, in prosthetic surgery, the evolution of the design and tribology of prosthetic components and the refinement of navigated and robotic techniques have certainly prolonged the survival of implants, improving the mechanics of neo-articulations, considerably improving patient satisfaction as a result. Another innovative breakthrough that opens exciting prospects of research is the development of 3D printing to fabricate prosthetic elements and support the surgeon, enabling the realization of increasingly precise implants customized to the individual patient. Finally, the remarkable development of new minimally invasive techniques for treating numerous orthopedic diseases should be considered. In this Special Issue, we invite the authors to present articles on the advances in and perspectives regarding prosthetics and minimally invasive surgery.

Guest Editors

Prof. Dr. Andrea Marinozzi

1. Operative Research Unit of Orthopaedic and Trauma Surgery, Fondazione Policlinico Universitario Campus Bio-Medico, Via Alvaro del Portillo 200, 00128 Rome, Italy

2. Research Unit of Orthopaedic and Trauma Surgery, Department of Medicine and Surgery, Università Campus Bio-Medico Di Roma, Via Alvaro del Portillo 21, 00128 Rome, Italy

Prof. Dr. Biagio Zampogna

1. Operative Research Unit of Orthopaedic and Trauma Surgery, Fondazione Policlinico Universitario Campus Bio-Medico, Via Alvaro del Portillo 200, 00128 Rome, Italy

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
