

Special Issue

Key Quality Indicators in Diagnosis and Treatment of Respiratory Diseases

Message from the Guest Editor

Integrating research data into clinical practice is becoming increasingly challenging in an era of rapid scientific and technological advancement. Particularly for the field of respiratory medicine, the COVID-19 pandemic highlighted the importance of real-world data in delivering reliable, timely solutions to evolving challenges. This Special Issue invites original research studies, comprehensive reviews, and meta-analyses exploring the strengths and limitations of international and national guidelines, policies, and directives in the diagnosis and management of respiratory diseases. Additionally, we welcome real-world data examining the integration and interaction between secondary and tertiary care in managing both chronic and acute respiratory disorders, including asthma, COPD, interstitial lung disease, bronchiectasis, sleep-disordered breathing, pleural disorders and lung cancer.

- key quality indicators
- respiratory disorders
- quality improvement
- real-life data

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
