

Special Issue

Oral Hygiene: Updates and Clinical Progress: 2nd Edition

Message from the Guest Editor

The field of oral health is currently experiencing significant momentum, driven by the implementation of the World Health Organization's (WHO) Global Oral Health Strategy (2023–2030). This strategy aims to translate international commitments into concrete actions at the national and regional levels. It emphasizes the integration of oral healthcare into primary health services, with a particular focus on prevention, early detection, and appropriate treatment. Training healthcare professionals in a coherent and interdisciplinary approach is also a core priority. In this context, strengthening research on the social determinants of oral health, technological innovations, and effective care models is essential, while relying on evidence-based data to guide policies and practices. These orientations constitute a fundamental structural framework that fully justifies the continuation of our Special Issue "Oral Hygiene: Updates and Clinical Progress." We encourage the submission of contributions that align closely with this global momentum, strongly driven by the WHO, aiming to achieve sustainable improvements in oral health worldwide.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s
