

Special Issue

Advances in Pulmonary Disease Management and Innovation in Treatment

Message from the Guest Editors

Pulmonary diseases represent a significant burden on global health systems, with increasing prevalence and complexity across diverse populations. Recent advancements in diagnostics, pharmacology, and interventional approaches have significantly improved our ability to manage conditions such as asthma, COPD, interstitial lung diseases, and sleep-related breathing disorders. This Special Issue aims to highlight personalized strategies in pulmonary disease management, from early detection and precision medicine to innovative therapeutic interventions and integrated care models. Particular attention is given to emerging technologies, biomarker-driven treatment pathways, non-invasive ventilation techniques, and smoking cessation programs. We encourage contributions that offer clinical insight and multidisciplinary relevance in the evolving field of respiratory medicine.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
