

## Special Issue

# Updates on the Management of Peripheral Arterial Disease

### Message from the Guest Editor

Peripheral artery disease (PAD), ranging from intermittent claudication to critical limb-threatening ischemia, affects more than 200 million people worldwide, with a huge increase in prevalence in the last decade. Over the years, different pharmacological and interventional strategies have been recommended. Medical management includes smoking cessation, exercise programs, lipid-lowering, and antiplatelet therapies, while interventional strategies include surgical and endovascular revascularization. Endovascular revascularization has progressively gained the role of a primary treatment strategy thanks to recent technological advances. However, the presence of vascular calcification may still affect the efficacy of endovascular therapies. Therefore, new techniques for vessel preparation have been developed aiming to improve short- and long-term outcomes. The aim of this Special Issue is to provide a comprehensive update on the diagnosis and treatment of patients with PAD. Therefore, we invite interventional cardiologists and clinicians to submit their works related to this particular field.

### Guest Editor

Dr. Angelo Cioppa

Interventional Cardiology Service, "Montevergine" Clinic, GVM Care & Research, 83013 Mercogliano, Italy

### Deadline for manuscript submissions

closed (15 December 2024)

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
