Clinical Aspects of Cardiac Arrhythmias and Arrhythmogenic Disorders

Message from the Guest Editors

Issues related to cardiac arrhythmias constitute an inherent problem in modern cardiology and internal medicine in general. In everyday clinical practice, we encounter cases that are seemingly easy but actually extremely difficult. Expanding our knowledge on various aspects of arrhythmology is extremely important for every cardiologist. We are currently focusing on the development of knowledge in this area, acquiring more and more experience with modern therapeutic technologies. It is extremely important that our own research and observation results be presented to the international cardiology community. Only in this way can we exchange experiences and scientific progress moving forward. This is the purpose of the current Special Issue of the *Journal of Clinical Medicine*, entitled “Clinical Aspects of Cardiac Arrhythmias and Arrhythmogenic Disorders”. Therefore, researchers in the field of cardiac arrhythmias are encouraged to submit their findings to this Special Issue in the form of original articles or reviews. We are excited to invite you to contribute to this Special Issue.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
