

Special Issue

State-of-the-Art in Aortic Surgery

Message from the Guest Editor

The surgical treatment of aortic disease has evolved significantly over the past decade, with a shift in focus from the treatment of acutely diseased aortic areas towards the lifetime management of aortic disease. This has lead to more radical strategies to treat aortic disease during the initial operation to avoid long-term complications. Additionally, interventional techniques are increasingly performed and often combined with surgical treatment itself as “hybrid techniques”. With this Special Issue, we welcome authors to submit papers on contemporary treatments of aortic disease, with a special focus on hybrid and interventional techniques and with special emphasis on heart team/vascular team approaches and the lifetime management of aortic disease. **Keywords:** hybrid techniques, aortic disease, interventional treatment, life-time management of aortic disease, aortic dissection, frozen elephant trunk, connective tissue disease

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
