

## Special Issue

# Clinical Management of Burns: Past, Present and Future

### Message from the Guest Editor

The progress of burn care has changed and is changing the morbidity and mortality of burn victims of all ages. A better understanding of burn pathology and the realization that it is a complex syndrome where each phase, aspect, and treatment may have a deep impact on other physiological and pathological phenomena lead to a comprehensive approach towards burn victims and the formation of specialized burn teams and burn centers. Progress in intensive care, medication, surgery and non-invasive therapies creates new tools for burn teams, but their cost in the present cost-sensitive era poses additional challenges to care providers. In this Special Issue, we welcome papers that describe paradigm-changing approaches as well as new understandings of old phenomena. We also encourage papers that approach the handling of BMCI and address the frequent expectation that burn specialists should also act as soft tissue trauma specialists.

- history of burn care
- burn care infection
- inflammation
- burn wound care and closure
- burn mass casualty incidents (BMCIs)
- surge capacity
- burn scar treatment

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
