

## Special Issue

# Clinical Updates on Lung Cancer Approaches

### Message from the Guest Editor

Lung cancer is a challenging disease worldwide. Currently, recent advances regarding biomarkers and systemic therapies have been developed to alter this disease's prognosis. Broad NGS panels are now a reality in clinical practice; they help a lot of clinicians in making the best decisions to ultimately improve patient care. In this Special Issue, we hope to examine papers regarding innovation and novel technologies for lung cancer diagnosis and treatment. We welcome original articles, meta-analyses, systematic reviews, narrative reviews, clinical cases, and clinical trials regarding lung cancer issues.

### Guest Editor

Prof. Dr. Ramon Andrade De Mello

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
