

Special Issue

Joint Arthroplasties: From Surgery to Recovery

Message from the Guest Editors

We are proud to announce a call for papers on total joint arthroplasties and the timeline from surgery to rehabilitation and recovery. This special issue is devoted to orthopedic surgeons and all other physicians involved in the road to recovery after a total joint arthroplasty. Particular emphasis will be given to innovation in surgical techniques and rehabilitation. Furthermore, the discussion of long-term outcomes and follow-up of total joint arthroplasties is a particular area of interest of this Special Issue and submissions of this kind are strongly encouraged. Selected case reports on very particular situations and small case-series reporting new surgical techniques may also be accepted. Meta-analysis and literature reviews on specific topic are also welcomed.

Guest Editors

Dr. Paolo Schiavi

Orthopedic Clinic, Department of Medicine and Surgery, University Hospital of Parma, 43126 Parma, Italy

Dr. Guido Grappiolo

Fondazione Livio Sciuotto Onlus, Campus Savona, Università degli Studi di Genova, 17100 Savona, Italy

About the Journal

Message from the Editorial Board

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.
