

Special Issue

Multiple Sclerosis: Current Diagnosis, Treatment, and Future Options

Message from the Guest Editors

This Special Issue will focus on the latest advances in multiple sclerosis management, covering innovative diagnostic approaches, emerging therapies, and future treatment directions. We will highlight cutting-edge research that bridges clinical practice and scientific discovery in this rapidly evolving field. The Special Issue will cover a wide range of topics, including, but not limited to, the following:

- Novel diagnostic biomarkers and imaging techniques;
- The efficacy and safety of new disease-modifying therapies;
- Personalized treatment strategies;
- Future therapeutic options (e.g., remyelination strategies, stem cell therapy).

This Special Issue will offer neurologists and researchers comprehensive insights to optimize patient care and inspire future investigations in multiple sclerosis.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
