

## Special Issue

# Visualizing Cardiac Function: Advances in Modern Imaging Diagnostics

### Message from the Guest Editors

Understanding and quantifying cardiac function is fundamental to diagnosing and managing cardiovascular disease. In recent years, advances in noninvasive imaging have revolutionized the way we visualize the beating heart—allowing for more detailed assessment of anatomy, mechanics, and flow. This Special Issue focuses on recent innovations in echocardiography, cardiac magnetic resonance (CMR), and computed tomography (CT), as well as emerging techniques such as 3D and 4D imaging, myocardial strain analysis, and artificial intelligence–driven image interpretation. We invite original research and review articles that explore how these modalities contribute to the evaluation of ventricular and atrial performance, myocardial deformation, valvular dynamics, and tissue characterization. Contributions addressing novel imaging biomarkers for heart failure, congenital and valvular heart disease, cardiomyopathies, and ischemic heart disease are particularly welcome.

---

### Guest Editors

Dr. Dafni Charisopoulou

2nd Department of Paediatrics, AHEPA University General Hospital,  
School of Medicine, Aristotle University of Thessaloniki, 54636  
Thessaloniki, Greece

Prof. Dr. Michael Henein

1. Department of Medical Biotechnologies, Division of Cardiology,  
University of Siena, 53100 Siena, Italy  
2. National Heart and Lung Institute, Imperial College, London SW3  
6LY, UK

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

---

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
