

Special Issue

Advances in Oculoplastic Surgery and Ocular Surface Diseases

Message from the Guest Editors

Dear Colleague,

This Special Issue of the Journal of Clinical Medicine brings together current evidence and surgical innovation at the intersection of ocular surface disease, corneal pathology, and oculoplastic surgery. Special emphasis is placed on corneal neurotization, a rapidly advancing technique offering significant benefits in the management of neurotrophic keratopathy, highlighting surgical methods, indications, and functional outcomes related to restoration of corneal sensitivity and epithelial healing. The issue explores the role of corneal innervation in maintaining surface integrity and presents insights into tissue remodeling following nerve injury. The therapeutic application of hemocomponents, including autologous serum and platelet-rich plasma, is evaluated for their neurotrophic and anti-fibrotic potential. Eyelid malpositions, seventh nerve palsy, and thyroid eye disease are examined for their impact on the ocular surface, with discussion of surgical techniques to address exposure-related corneal damage.

Guest Editors

Prof. Dr. Michael T. Yen

Dr. Francesco Quaranta Leoni

Dr. Balestrazzi Alessandra

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
