## Special Issue

# Innovations in Plastic and Reconstructive Research

## Message from the Guest Editors

A significant focus of this Special Issue, titled "Innovations in Plastic and Reconstructive Research", is the pivotal role of microvascular surgery in the reconstruction of complex facial and limb defects. Microsurgery, with its ability to reconnect tiny blood vessels and nerves, has revolutionized the approach to facial reconstruction, allowing for enhanced aesthetic outcomes and functional restoration. The contributions within this issue highlight advancements in microsurgery that are critical for optimizing outcomes in challenging cases, such as post-traumatic deformities and tumor resections. These innovative techniques not only improve the viability of tissue transfers but also facilitate the reconstruction of intricate anatomical structures. By promoting collaboration among surgeons, researchers. and industry leaders, this Special Issue aims to stimulate further innovations that will elevate the standards of care in both plastic reconstructive and aesthetic surgery. We invite readers to explore these pioneering studies and consider their implications for the future of this dynamic discipline.

## **Guest Editors**

Dr. Damiano Tambasco

Plastic Surgery Unit, San Carlo di Nancy Hospital, 00165 Rome, Italy

Dr. Roberta Albanese

Plastic and Reconstructive Surgery, DAME—Department of Medical Area, University Hospital of Udine, 33100 Udine, Italy

## Deadline for manuscript submissions

18 January 2026

## **About the Journal**

## Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine*'s (*JCM*) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

## **Editors-in-Chief**

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000 Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, University of Tokyo, Tokyo, Japan

## **Author Benefits**

## **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

## Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

## **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
