Hereditary Hemorrhagic Telangiectasia: Recent Advances and Future Challenges—2nd Edition

Message from the Guest Editors

This Special Issue is the second edition of “Hereditary Hemorrhagic Telangiectasia: Recent Advances and Future Challenges”

(https://www.mdpi.com/journal/jcm/topical_collections/Hereditary_Hemorrhagic_Telangiectasia). Hereditary hemorrhagic telangiectasia (HHT) is an autosomal heritable disease leading to vascular malformations, ranging from mucocutaneous telangiectases to large arteriovenous malformations, which can occur in different organs. HHT is associated with a decreased quality of life and severe complications. If untreated, the disease leads to a decreased life expectancy. Recent years have brought advances in the diagnosis and treatment of, but not a cure for, HHT. The exact molecular etiology is still unknown, but important steps in unravelling the mechanisms of disease have been made. This Special Issue aims to highlight not only the current knowledge regarding the diagnosis and treatment of HHT, but also the newest insights in the molecular basis of HHT, because understanding the mechanisms of disease is essential for the development of new medicines or therapeutic strategies.

Guest Editors

Prof. Dr. Carmelo Bernabeu

Dr. Marco Post

Dr. Hans-Jurgen Mager

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
