

Special Issue

Advances in the Prevention, Diagnosis, and Rehabilitation of Sports Injuries

Message from the Guest Editor

This Special Issue will delve into cutting-edge advancements in the prevention, diagnosis, and rehabilitation of sports injuries. Topics will range from innovative injury prevention strategies, like biomechanics and training methodologies, to the latest diagnostic tools, such as imaging techniques and biomarkers. Additionally, this Special Issue will explore novel rehabilitation approaches, including personalized rehabilitation plans and technology-assisted therapies. Our aim is to provide a comprehensive overview of how sports medicine is evolving to enhance athletes' performance, reduce injury occurrence, facilitate quicker and more accurate diagnoses, and optimize rehabilitation outcomes, ultimately promoting long-term athletic health and well-being. Keywords: orthopedics, prevention, rehabilitation, management, sports injuries

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi
