Clinical Advances in Cosmetic Dentistry and Orthodontics

Message from the Guest Editor

Nowadays, many patients request dental treatments for aesthetic reasons. These treatments usually consist of multidisciplinary approaches, which mainly include orthodontics and cosmetic procedures. Cosmetic dentistry has evolved in recent years due to patients' demand and the introduction of new restorative materials and the digitalization of most of the procedures used both in the clinic and in the manufacturing process. Orthodontics has also transformed in the last few years, with new materials and techniques. Aesthetic multidisciplinary treatments have become digital, and the materials have become highly favored. The objectives of this Special Issue are the presentation of new approaches to orthodontic and dental cosmetic treatments, such as new protocols, and the digital workflow of treatments that involve multidisciplinary procedures. The scope of this Special Issue is to provide an overview of recent advances in the fields of aesthetic dentistry and orthodontics. Therefore, researchers in this field are encouraged to submit an original article or review to this Special Issue (case reports and short reviews will not be accepted).

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
