Special Issue

Diagnosis, Treatment, and Prognosis of Neuropsychiatric Disorders

Message from the Guest Editors

The Special Issue on "Diagnosis, Treatment, and Prognosis of Neuropsychiatric Disorders" will provide new insights into opportunities for improving diagnosis, care, and outcomes of people suffering from neuropsychiatric disorders. The volume aims to collect original research, commentaries, and systemic or narrative reviews, opinion papers, and innovative protocols about the diagnosis, treatment, and prognosis of neuropsychiatric disorders, including (but not limited to) articles on genetic typing, neuroimaging findings, and artificial intelligence techniques to provide updates, new findings, and future perspectives of neuropsychiatric disorder research and care.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine*'s (*JCM*) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
