Special Issue

Current Therapeutic Options for Cardiovascular Diseases: From Bench to Bedside

Message from the Guest Editor

The area of vascular pharmacology is on the move and is rapidly evolving. New knowledge, however, suggests that sometimes data generated in clinical trials contradict real-life clinical scenarios. Numerous researchers and practitioners have discussed the clinical features of various cardiac diseases and optimal therapeutic options. In general, they have agreed that many patients require an individual approach to yield better outcomes. Furthermore, major outcomes may be different because of ethnicity, drug doses, and regiments challenging uniformed therapeutic recommendations. In summary, this Special Issue will focus on various approaches to national pharmaceutical management in vascular diseases, diabetes, stroke, and arrhythmias. We are expecting healthy friendly dialog debating these critical issues among top research groups.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine*'s (*JCM*) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000 Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
