## Special Issue

# Intracranial Aneurysms: Diagnostics and Current Treatment

## Message from the Guest Editors

Neurovascular diseases remain one of the leading causes of global morbidity and mortality. In the last few decades, various advancements have progressively improved the diagnosis of intracranial aneurysms. However, challenges still remain. The aim of this Special Issue is to highlight the current research and progress for the management of intracranial aneurysms (primary and secondary prevention, when possible, diagnostic imaging, acute inpatient care, endovascular and/or surgical treatment, complication management, rehabilitation and recovery, as well as progress in translational science). Our goal is to provide a detailed overview of key discoveries, novel diagnostic and innovative treatment methods and improved application of established approaches. We eagerly anticipate contributions on ruptured and un-ruptured aneurysms. In addition, we encourage interdisciplinary collaborations, inviting contributions from neurosurgeons, neuroradiologists, neurologists, neurorehabilitation specialists, and other allied healthcare professionals.

## **About the Journal**

## Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine*'s (*JCM*) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

## **Editors-in-Chief**

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000 Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, University of Tokyo, Tokyo, Japan

## **Author Benefits**

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

## **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
