

Special Issue

Clinical Advances and Challenges in Vascular and Endovascular Medicine: 2nd Edition

Message from the Guest Editor

It is my pleasure to invite you to contribute to the Special Issue entitled “Clinical Advances and Challenges in Vascular and Endovascular Medicine: 2nd Edition”. This is a new edition; we published seven papers in the first edition. For more details, please visit https://www.mdpi.com/journal/jcm/special_issues/2WQD52AQM. While recent clinical advances in vascular and endovascular medicine have greatly improved patient outcomes, they have also introduced new challenges that will require ongoing attention from the medical community. Addressing these challenges will require continued innovation, research, and collaboration among practitioners in these fields. We look forward to your enthusiastic participation in this Special Issue that will promote scientific communication of our knowledge with the ultimate goal of positively influencing treatment and care for our patients. Please click [here](#) to find more information.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief
