Strategies for Preventing and Managing Postoperative Complications in Minimally Invasive Surgery

Message from the Guest Editor

This Special Issue, "Strategies for Preventing and Managing Postoperative Complications in Minimally Invasive Surgery", aims to explore the latest advancements in reducing and addressing postoperative complications associated with minimally invasive surgical procedures. This comprehensive collection of articles will cover a wide range of topics, including preoperative risk assessment, intraoperative techniques to minimize complications, and postoperative care strategies. The focus will be on identifying evidence-based preventive measures and effective management approaches for complications such as infection, bleeding, organ injury, and anesthetic-related issues. Additionally, this Special Issue will delve into the role of technology, patient optimization, and multidisciplinary collaboration in improving postoperative outcomes for patients undergoing minimally invasive surgery. Furthermore, it will examine how minimally invasive surgery affects patient care and patient satisfaction, with a focus on patient-reported outcomes and their impact on overall quality of care.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief
