

Special Issue

New Insights in Cardiac Amyloidosis and Its Complications

Message from the Guest Editors

Cardiac amyloidosis is no longer a rare and exotic disease. Even if our understanding of the disease remains limited, tremendous progress has recently been made in diagnosing and treating this fatal disease. In this dedicated Special Issue we aim to provide new insights into the epidemiology, acute and chronic manifestations, as well as new and emerging therapies of cardiac amyloidosis and its complications. We welcome authors to submit their valuable work and contribute to demystifying this challenging clinical problem. Keywords:

- amyloidosis
- light chains
- tafamidis
- transthyretin
- restrictive cardiomyopathy
- peripheral polyneuropathy
- heart failure

Please click [here](#) to find information! Welcome to contribute!

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi
