

## Special Issue

# Clinical Diagnosis and Treatment of Uveitis

### Message from the Guest Editor

The term uveitis encompasses a large number of heterogeneous diagnoses of intraocular inflammation of various causes. The immune specificities of the intraocular compartment, immune dysregulation, genetic background, infections and other environmental factors, and especially the necessary joint action of predisposing factors for the development of the disease, form a fascinating pathophysiological line that is a great challenge for clinicians but also for experts engaged in basic research. Due to its pathophysiological heterogeneity, dealing with uveitis requires both basic medical knowledge and the application of new knowledge and biotechnologies that are applicable to this issue. We have witnessed great progress in the discovery of pathophysiology, diagnostics, and treatment in medicine in recent decades, which is also visible in the approach to uveitis. Therefore, this area of clinical ophthalmology represents a great challenge and offers broad opportunities for research work. All authors involved in basic and clinical research in uveitis are welcome in this Special Issue.

### Guest Editor

Dr. Nenad Vukojević

Department of Ophthalmology, University Hospital Center Zagreb,  
School of Medicine, University of Zagreb, 10 000 Zagreb, Croatia

### Deadline for manuscript submissions

15 March 2026

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

---

### Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
