

Special Issue

Dental Implantology: Clinical Updates and Perspectives

Message from the Guest Editor

Dental implantology has significantly evolved over the past decades, transforming the landscape of oral rehabilitation. From its early innovations to modern techniques, the field has continuously advanced, improving patient outcomes and setting new standards in dental care. This Special Issue aims to comprehensively overview the latest clinical updates and future perspectives in dental implantology. It seeks to highlight cutting-edge research, clinical practices, and technological advancements that are shaping the future of implantology. This issue will feature pioneering studies that explore novel implant materials, surgical techniques, and long-term outcomes. Research that bridges the gap between clinical practice and innovation is emphasized, offering new insights into patient care and treatment efficacy. We invite submissions of original research articles, systematic reviews, clinical case reports, and short communications. Papers that present innovative approaches, rigorous clinical studies, and interdisciplinary perspectives in dental implantology are particularly welcomed.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
