

Special Issue

New Diagnostic and Therapeutic Trends in Sepsis and Septic Shock

Message from the Guest Editors

The forthcoming Special Issue of the Journal of Clinical Medicine, titled “New Diagnostic and Therapeutic Trends in Sepsis and Septic Shock”, delves into the latest advancements and innovations aimed at improving the detection and treatment of these critical conditions. This Special Issue assembles a collection of cutting-edge research articles, reviews, and expert perspectives that illuminate recent progress in the field. This Special Issue aims to serve as a comprehensive resource for clinicians, researchers, and healthcare professionals committed to advancing the understanding and management of sepsis and septic shock. By presenting the latest scientific discoveries and clinical innovations, the Journal of Clinical Medicine seeks to foster improved patient outcomes and drive forward the field of sepsis care.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
