

Special Issue

Pancreatic Cancer: Current and Emerging Treatment Options

Message from the Guest Editors

This Special Issue aims to provide a comprehensive overview of the current and emerging treatment options for pancreatic cancer. It is crucial to explore novel therapeutic approaches and advancements in the field. This Special Issue welcomes the submission of original research articles, reviews, and clinical studies that focus on various aspects of pancreatic cancer treatment. We encourage submissions that highlight innovative strategies, novel drug developments, targeted therapies, immunotherapies, and precision medicine approaches. This Special Issue will not accept mini-reviews or case reports. Instead, we aim to present in-depth research findings, evidence-based analyses, and critical evaluations of therapeutic interventions for pancreatic cancer. We invite researchers, clinicians, and experts in the field to contribute their valuable insights and share their latest findings. By bringing together a diverse range of perspectives, we hope to foster collaboration, stimulate further research, and ultimately improve the outcomes for patients with pancreatic cancer.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi
