

## Special Issue

# Attention Deficit Hyperactivity Disorder (ADHD): Diagnosis, Treatment, and Management

### Message from the Guest Editor

We are organizing a Special Issue on adult ADHD, specifically focusing on the clinical pathway from pre-diagnosis, referral, and diagnostic and treatment approaches.

Adult ADHD is a rather new diagnostic category compared to other disorders, despite it being researched considerably. Areas of focus have been neuropsychology, biological markers, genetic markers, neuroanatomy, and neuroimaging

Regarding treatment approaches, several new pharmacological approaches have been studied, and different psychological and other types of methods are being developed to achieve a more holistic approach to therapeutics than medication.

This Special Issue is designed to collect articles focusing on new populations in which ADHD can be found, new approaches to diagnostics, and new treatment approaches. It welcomes input from different disciplines who feel they can contribute to this discussion.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
