Clinical Management of Children and Adolescents with Asthma

Message from the Guest Editors

Asthma is a chronic condition that affects the airways, resulting in the inflammation and narrowing of air passages. The symptoms of asthma can be mild to severe, and can have a significant impact on a child's quality of life. Children and adolescents with asthma represent a significant and growing population of patients requiring clinical care. The management of asthma in children and adolescents requires ongoing research and evidence-based practices to improve the quality of care and outcomes for this population. The development of new treatments and interventions, as well as the optimization of existing therapies, is essential for the effective management of asthma in children and adolescents. This Special Issue, Clinical Management of Children and Adolescents with Asthma, focuses on the latest research and clinical practices related to the diagnosis, treatment, and management of asthma in children and adolescents. It covers a wide range of topics, from the pathophysiology of asthma to the use of pharmacological and non-pharmacological interventions, discussing the current challenges and future prospects of managing asthma in children and adolescents.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi
