Endometriosis and Adenomyosis: Modern Concepts on Clinical Outcomes, Treatment and Management

Message from the Guest Editor

Endometriosis is a chronic benign disease which affects 10% of women worldwide. Adenomyosis affects 5–70% of women and is frequently associated with endometriosis. Both reduce the quality of life of patients by causing painful symptoms, abnormal uterine bleeding, and subfertility. Nowadays, treatment includes several medical and surgical options. Research is proceeding quickly. New findings and modern concepts in the near future can aid specialized and dedicated physicians in the management of endometriosis and adenomyosis. The topics of this Special Issue will include (but are not limited to):

- New medical treatments for endometriosis and adenomyosis;
- Novel surgical approaches to endometriosis and adenomyosis;
- Investigation of accepted treatments which could modify the outcome and the clinical management of endometriosis and adenomyosis patients.

Therefore, researchers in the field of endometriosis and adenomyosis are encouraged to submit original articles and reviews related to this Special Issue.

Communications, systematic reviews, and meta-analyses are also welcome.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
