

Special Issue

Current Concepts and Updates in Eye Diseases

Message from the Guest Editors

The landscape of ophthalmology is evolving rapidly—driven by cutting-edge advances in diagnostics, imaging, and therapeutics that are transforming the way we understand and treat vision-threatening conditions. This Special Issue, led by , , Prof. Dr. Anna Machalińska, and Prof. Dr. Jerzy Mackiewicz, aims to showcase the most impactful innovations shaping the present and future of eye disease management. We welcome submissions covering a wide range of topics, including:

- Novel diagnostic technologies and imaging tools
- Advances in medical and pharmacological therapies
- Surgical innovations and techniques
- Emerging and translational research concepts
- Personalized medicine & global strategies for treatment optimization

This collection will cover multidisciplinary insights into complex intraocular diseases—such as corneal diseases, glaucoma, cataract, retinal disorders, uveitis, and ocular oncology—with a focus on clinical translation and innovation.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief
