

## Special Issue

# Addictive Disorders and Clinical Psychiatry—Part II

### Message from the Guest Editor

After the success of the Special Issue “Addictive Disorders and Clinical Psychiatry—Part I”, covering a wide array of topics, including opioid use disorder and chronic pain, GHB Withdrawal Syndrome, VR applications in the treatment of addictive disorders and so on. Now, we are working on the second volume. Addictive disorders are among the most common psychopathologies, with a tremendous impact on the individual, their direct social context and society. Addictive disorders are, however, a heterogeneous set of disorders, encompassing addiction to different psychic-active substances as well as behavioral addictions. Furthermore, addictive disorders often co-occur with other psychiatric and physical conditions, commonly leading to the course of both disorders being negatively affected. To further the field, it is paramount to gain more insight into the clinical heterogeneity of addictive disorders and, consequently, to develop more personalized treatment matching. For this Special Issue, we continue to welcome the contributions from the field of addiction medicine and addiction psychiatry and psychology that focus on clinical addiction research.

### Guest Editor

Dr. Arnt F. A Schellekens

1. Department of Psychiatry, Radboudumc, 6525 GC Nijmegen, The Netherlands
2. Nijmegen Institute for Scientist-Practitioners in Addiction (NISPA), 6525 HR Nijmegen, The Netherlands

### Deadline for manuscript submissions

closed (31 January 2025)

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
