Advances in Lung Cancer Surgery

Message from the Guest Editors

Currently, lung cancer treatment is changing owing to early detection achieved via computed tomography screening. Minimally invasive surgery has become widespread in thoracic surgery and is an established standard treatment for patients with early-stage lung cancer. Uniportal or robot-assisted thoracic surgery has drastically changed the conventional surgical approach in lung cancer surgery. An increasing number of innovations in thoracic surgery are focused on minimally invasive techniques and can reduce the overall invasiveness experienced by patients. The goal of this Special Issue entitled *Advances in Lung Cancer Surgery* is to share new insights into the latest techniques available for minimally invasive surgery, as well as the critical limitations or aspects that require improvement in the future. We welcome high-quality research papers with strong clinical impact regarding the latest topics in lung cancer treatment surrounding diagnostic approaches or surgery.

Guest Editors

Dr. Yojiro Yutaka

Department of Thoracic Surgery, Kyoto University Graduate School of Medicine, Kyoto, Japan

Dr. Eugenio Pompeo

Department of Thoracic Surgery, Policlinico Tor Vergata University, Rome, Italy

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
