

## Special Issue

# New Insights into Abdominal Surgery

### Message from the Guest Editor

This Special Issue aims to encapsulate the evolving landscape of abdominal emergency surgery by highlighting the current research status and identifying the core issues that demand our attention. By delving into innovative techniques, emerging technologies, and novel therapeutic approaches, this Special Issue seeks to enhance patient outcomes and surgical practices. The scope of this Special Issue encompasses diverse aspects of abdominal surgery, including, without being limited to, trauma and acute care surgery, minimally invasive surgery in emergency settings, and pre/post-operative care strategies. Furthermore, it encourages interdisciplinary collaboration and knowledge exchange between surgeons and other specialists, such as radiologists, dietitians, and infectiologists, to cover the relationship between the outcomes of surgery and multiple pre-operative variables. Moreover, we would like to address the enhanced identification of acute-care surgical patients at risk of sepsis. Accordingly, this Special Issue endeavors to catalyze transformative breakthroughs, optimize surgical outcomes, and, ultimately, improve the quality of patient care in abdominal surgery.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPLus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
