

## Special Issue

# Clinical Advances and Management in Corneal Diseases

### Message from the Guest Editor

This Special Issue, entitled "Clinical Advances and Management in Corneal Diseases", aims to focus on the latest developments in the diagnosis, treatment, and management of corneal disorders. We aim to cover a range of topics, including innovative surgical techniques, such as advanced keratoplasty methods and the use of regenerative medicine in corneal transplantation. Additionally, we set out to explore authentic therapeutic approaches, including pharmacological treatments and surgery, aimed at improving patient outcomes. In this Special Issue, we welcome the submission of papers focused on the diagnosis, treatment, and management of corneal diseases.

- refractive surgery
- corneal transplantation
- regenerative medicine
- AI diagnosis
- infectious disease
- corneal dystrophy

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
