Clinical Advances and Management in Corneal Diseases

Message from the Guest Editor

This Special Issue, entitled "Clinical Advances and Management in Corneal Diseases", aims to focus on the latest developments in the diagnosis, treatment, and management of corneal disorders. We aim to cover a range of topics, including innovative surgical techniques, such as advanced keratoplasty methods and the use of regenerative medicine in corneal transplantation. Additionally, we set out to explore authentic therapeutic approaches, including pharmacological treatments and surgery, aimed at improving patient outcomes. In this Special Issue, we welcome the submission of papers focused on the diagnosis, treatment, and management of corneal diseases.
