

Special Issue

Trends in Minimally Invasive Urological Surgery: Robot and Beyond

Message from the Guest Editors

The Special Issue “Trends in Minimally Invasive Urological Surgery: Robot and Beyond” explores advancements and emerging trends in urological surgery techniques, with a focus on minimally invasive approaches including robotic-assisted surgery.; Articles within this issue discuss the latest technologies, surgical innovations, outcomes, and future directions in the field. Topics range from the clinical application of robotic systems in urology—including the more recently developed robotic platforms—to novel minimally invasive techniques beyond robotics— including the adoption of advanced 3D reconstruction technologies and artificial intelligence— highlighting their impact on patient care and surgical practices.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
