

## Special Issue

# Current Concepts in Melanoma: Innovations in Early Detection, Prognosis and Management

### Message from the Guest Editor

Melanoma is the most aggressive form of skin cancer and a major global health concern. While incidence rates are declining in younger individuals and stable in middle-aged adults, they continue to rise in older populations. Early detection remains critical, as timely treatment greatly improves survival. Advances in non-invasive diagnostic tools now allow clinicians to identify suspicious lesions with greater accuracy and minimal discomfort, underscoring the need for well-trained healthcare professionals. Over recent decades, treatment options have expanded dramatically. Immune checkpoint inhibitors and targeted therapies have revolutionized medical management, while surgical innovations continue to enhance patient outcomes. This Special Issue, “Melanoma: Advances in Early Detection, Prognosis, and Management,” welcomes original research and reviews on novel diagnostic methods, prognostic markers, and evolving treatment strategies aimed at improving clinical practice and patient survival.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

---

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
