Innovations in Perioperative Anesthesia: Advancing Non-Operating Room Anesthesia (NORA) and Regional Techniques

Message from the Guest Editors

Perioperative medicine is evolving rapidly, driven by the growing complexity of surgical procedures and patient populations. In this context, anesthesia care is expanding beyond the traditional operating room, with non-operating room anesthesia (NORA) emerging as a critical domain requiring tailored approaches to safety, monitoring, and anesthetic technique. Concurrently, ultrasound-guided regional anesthesia, including peripheral nerve blocks and fascial plane blocks, has become a cornerstone in perioperative pain management, offering enhanced analgesia, reduced opioid consumption, and improved recovery profiles across diverse surgical settings.

This Special Issue aims to explore current challenges and innovations in perioperative anesthesia, with a focus on NORA and regional techniques. We invite contributions that address clinical, organizational, and technical aspects of anesthesia care in non-traditional settings, as well as research into the efficacy and safety considerations of ultrasound-guided blocks.

We welcome original research and reviews that advance our understanding and practice in this dynamic field.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
