

Special Issue

Lung Transplantation: Current Progress and Future Directions

Message from the Guest Editor

The Special Issue "Lung Transplantation: Current Progress and Future Directions" offers a comprehensive overview of recent advancements and emerging trends in lung transplantation. It highlights significant progress in surgical techniques, immunosuppressive therapies, and patient management strategies that have enhanced outcomes and improved survival rates. Key topics include innovations in organ preservation, personalized medicine, and novel biomarkers for the effective monitoring and prediction of transplant success. This Special Issue also addresses ongoing challenges such as managing transplant rejection and chronic lung allograft dysfunction. Notably, it discusses the integration of artificial intelligence (AI) and machine learning for enhancing clinical decision-making, optimizing donor–recipient matching, and improving post-transplant care. Future directions highlighted include potential breakthroughs in regenerative medicine, technological advancements in transplantation, the development of new technologies to optimize donor–recipient matching, and post-transplant care.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPLus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
