# Transvenous Lead Extraction - Progress in Lead Management

### Message from the Guest Editors

This Special Issue "Transvenous Lead Extraction - Progress in Lead Management" aims to provide a comprehensive overview of the advancements and challenges in the field of lead extraction for cardiac device management. It will focus on the clinical aspects, techniques, outcomes, and safety considerations associated with transvenous lead extraction procedures. Leading experts in the field will contribute original research articles, reviews, and case studies to shed light on the latest developments in this rapidly evolving area. The goal is to enhance our understanding of the best practices, patient selection criteria, and potential complications related to transvenous lead extraction, ultimately improving patient outcomes and optimizing lead management strategies.
