Ovarian Cancer: Clinical Updates and Advances

Message from the Guest Editor

The most unpredictable, the most heterogeneous, the most hidden, the quickest, the most aggressive, and lethal gynecological cancer—ovarian/peritoneal cancer. We all dream of finding prevention methods, designing screening tools, being able to diagnose quicker, better predicting the outcome and safety of cytoreduction surgery, and composing more personalized systemic treatments to prevent our patients from recurrent disease followed by an unavoidable end. We wish we could combat ovarian cancer once and for all to keep our beloved grandmothers, mothers, sisters, and daughters with us. Please share your valuable research on ovarian cancer with us and other professionals in this Special Issue of the *Journal of Clinical Medicine*. We hope that by combining our efforts, we can make the disease easier and provide better outcomes for our patients. We would also welcome the results of translational research, especially the ones that have the power to exist and work in everyday clinical settings for our patients.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
