

Special Issue

Osteosarcoma: New Insights into Diagnosis and Treatment

Message from the Guest Editor

The goal of this Special Issue is to provide clinicians with an update on (1) the most current therapy options, including tyrosine kinase inhibitors and immunotherapy, (2) new strategies for clinical trial design, (3) controversies and new advances in surgical resection of lung metastases, (4) genetic characterization of tumors and its potential therapeutic impact, (5) use of liquid biopsies and deep learning for prognosis and response assessment, and (6) how preclinical discoveries regarding intratumoral heterogeneity, treatment resistance, and development of metastases can be translated to the clinic. With input from established leaders in each area, we hope this broad array of timely topics will inform treating physicians and inspire further discovery that can lead to improved outcomes for children, adolescents, and young adults with osteosarcoma.

Guest Editor

Prof. Dr. Lars M. Wagner

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
