

Special Issue

Application of Hemodialysis in the Treatment of Kidney Diseases

Message from the Guest Editors

The 68th Annual Meeting of the Japanese Society for Dialysis Therapy (JSDT) will be held from June 16 to 18, 2023 at the Kobe Convention Center. This Annual Meeting provides a yearly venue for many experts, researchers, and company representatives working in the field of dialysis medicine to gather and engage in discussion and debate. Since its starting point in dialysis therapy, a life-saving treatment for people suffering from renal failure, the field of dialysis medicine has continued to develop thanks to the skills and knowledge of our predecessors. Thus, medical professionals and researchers involved in dialysis care and medicine must continue to utilize our skills and use this as the foundation to put our knowledge into practice, with the aim of continuing to improve dialysis care. Focusing on current topics related to renal replacement therapy presented at the 68th JSDT, this Special Issue will provide a starting point for knowledge and skills relating to these advances.

- artificial kidney
- online hemodiafiltratio

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France
