Neuropsychopharmacology: Advances, Challenges and Opportunities

Message from the Guest Editors

Over the past decade, we have witnessed promising advances in neuroscience and have acquired a greater ability to study human genomics, drug receptor activity, and neural circuitry in detail. However, the clinical translation of these findings has not been so successful. This Special Issue is committed to the rapid publication of original research and review articles concerning all clinical and basic science aspects of neuropsychopharmacology and psychiatry. This includes research on the mechanisms by which drugs interact with the brain, and the behavioral and physiological outcomes of these interactions. Articles that advance our understanding of existing and novel neuropsychopharmacological agents or provide new insights into the biological basis of psychiatric disorders are particularly welcomed.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
