

## Special Issue

# Heart Valve Disease and Imaging Techniques

### Message from the Guest Editors

Imaging techniques have catalyzed a paradigm shift in the diagnosis and management of valvular heart disease, offering clinicians profound insights into the intricate mechanics of valve dysfunction. Valvular heart disease encompasses a diverse spectrum of conditions that profoundly affect the heart's valve structures, culminating in disruptive blood flow patterns and eventual consequences such as left ventricular dilatation and the deterioration of both diastolic and systolic function. The precision of evaluating and monitoring these multifaceted conditions holds paramount importance in guiding effective clinical decision making. In this context, a multitude of cutting-edge imaging methodologies have emerged as indispensable instruments, facilitating comprehensive visualization of valve morphology, function, and hemodynamics. The overarching goal of this Special Issue is to underscore how recent advancements in the realms of diagnosis, treatment, and prognosis prediction for various valvular disorders have fundamentally reshaped clinicians' approaches to addressing these complex conditions.

### Guest Editors

Dr. Francesca Musella

1. Cardiology Department, Santa Maria delle Grazie Hospital, Naples, Italy
2. Division of Cardiology, Department of Medicine, Karolinska Institutet, Stockholm, Sweden

Prof. Dr. Antonello D'Andrea

Department of Cardiology, "Umberto I" Hospital, 84014 Nocera Inferiore, SA, Italy

### Deadline for manuscript submissions

closed (20 July 2024)

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
