Clinical Advances in Structural Heart Diseases

Message from the Guest Editor

Structural heart diseases (SHDs) cover a wide range of congenital and acquired cardiac abnormalities affecting the heart valves, chambers, and associated structures. With new technologies and collaborative efforts, we are witnessing a transformation in how we approach these conditions. Ground-breaking advances in diagnostics and treatment options in SHD have already made changes in the prognosis and quality of life of thousands of patients. Nevertheless, the rapid pace of evolution and development of devices in transcatheter edge-to-edge valve repair, valve implantations in native and prosthetic positions, and endoscopic surgical interventions are maintained. In this issue, we will gather articles addressing recent breakthroughs in diagnosis, treatments, and management strategies with a focus on a multidisciplinary approach:

- Cutting-edge imaging techniques;
- Advancements in minimally invasive procedures;
- Comprehensive care.

This issue will explore the latest innovations and strive for better outcomes in patient care.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
